CONDITION OF THE MARKETS

Firmer Feeling, Better Demand and Higher Prices Yesterday at Chicago.

Slight Advance in Cereals, Followed by a Rise in Provisions, Which Were Strong, with a Bullish Feeling at the Close.

MONEY, STOCKS AND BONDS.

The Market Dull and Featureless Except Sugar, Which Advanced 2 3-8 Per Cent. NEW YORK, April 2.-Money on call was easy, ranging from 212 to 312 per cent., the last loan being made at 212, closing offered at 212 per cent.

Prime mercantile paper, 5@7 per cent. Sterling exchange quiet but firm at \$4.86 for sixty-day bills and \$4.8812 for de-

The total sales of stocks to-day were 142,011 shares, including the following: Lackawanna & Western, 6,062; St. Paul, 16,120.

The stock market presented no new feat ures to-day, but remained in the same rut that it has been in so long, and even less interest seemed to be taken in the course of prices than usual of late. A few specialties saved the market from utter stagnation, among which Sugar, Manhattan, Evansville & Terre Haute and Peoria, Decatur & Evansville led in the regular list. There was no sensation upon which to make a demonstration at the opening, and in the absence of any pressure to sell stocks from any quarter the opening figures were all higher than last night's prices, and the market displaying a firm undertone, further improvement of a fractional nature was made in the early trading. The apathy of speculators, however, soon became apparent in the dwindling transactions, and the most intense dullness marked the trading after the first hour, with a slight yielding in quotations, natural after the rally of the past two days. The news of the day was of a mixed character, but no influence upon prices one way or the other, but the rumors were worked for all they were worth, and these were generally bearish. The bears in the afternoon attacked the list on the assumption that the hardening tendency in exchange meant further exports of gold on Saturday, while asser-tions that the Governor of Nebraska had signed the maximum freight bill and that the Italian minister would sail on Satur-day were used with some effect upon the market. St. Paul, Rock Island and Burlington yielded nearly 1 per cent each, but other losses were insignificant. The strength in Sugar, however, railied the list in the last hour, and, while there was no improvement of note, the market was steadier and closed dull and fairly steady at about the lowest prices of the day. The final changes are generally slight losses, but Sugar is up 23s and Manhattan 1 per cent. Kailroad bonds were dull and, as usual, without marked tendency in either direction. The trading reached \$815,000, without special animation anywhere in the list, and with a larger number of issues traded in than for

Government bonds were dull and steady to firm. State bonds were dull but steady. The leading futures ranged as follows:

TRADING AT CHICAGO.

Wheat Makes a Slight Advance, in Which Other Cereals and Provisions Participated, CHICAGO, April 2.- A heavy demand for cash wheat and a state of affairs abroad, as shown by the tone of the cablegrams. which plainly indicated serious apprehensions regarding supplies spreading in England, made it easy to advance the price in spite of the determined efforts of many heavy sellers to prevent it. May wheat opened firm at \$1.0412 and closed strong at \$1.05 bid, or about 1c improvement on the price current at the corresponding time yesterday. Corn was steady to firm, in sympathy with wheat, and gained 4c. Provisions, after a weak start, braced up and closed firm at the best prices of the lay. While the foreign news was mainly responsible for the advance in wheat, local influences also made for higher prices. The state of the weather was disquieting to the shorts, and those of them who trade on the principle of submitting to only small losses were the principal buyers. From \$1.0412 May shot up quickly to \$1.0434, but met with heavy selling orders at the latter price and fell back slowly to \$1.0414. The trading was only brisk in spots, and the fluctustions for a long time were confined within comparatively narrow limits, the figures already quoted marking the extremes during the first half of the session. Bull news was crowding in over the wires, but every bulge was met by heavy offering from the bear contingent, headed by Ream, Linn and, it was said, Cudaby and Pardridge also. The taking of considerable lines of spring and winter wheat from store here to go East by rail, so close to the opening of lake navigation, was the cause of a further desire to buy on the part of the shorts.

Shipments—Flour, 9,000 brls; wheat, 5,000 bu; corn, 67,-There was an advance on this to \$1.05, and the reaction from that point did not carry the price below \$1.0412, and that was fol-lowed by another bulge and a jump to 51.051s. New York reported twelve boat-loads of wheat worked for Lisbon. Minneapolis millers were bidding is advance on patents. The closing cables reported Berlin lower for wheat futures by from 12c to 1c per bushel. London was 3d to 412d per quarter higher. Paris advanced 10 centimes on wheat and 5 centimes on flour. The damp weather and light receipts were famaintained with difficulty early in the day. wing to an apparent willingness to sell on the part of some of the firms who were identified with the bull clique during the previous heavy advance. The opening for May was 68c, and it declined to 672c and advanced again, striking 681ge for a moment. Considerable excitement was occasioned in oats by a dispatch from Frank Ryan, of St. Louis, to W. G. McCormic. It reported a corner and an advance in May bu; oats. 9,900 bu. from 53c to 58c. 3c of which was subsequently lost. The market attracted a large attendance of traders, and was excited, but not particularly active. May started at 5414c, or 3sc above yesterday's closing, and sold to 585sc, hardening to 55c on the strength of the above-mentioned dispatch. It reacted to 5412c, but recovered, and closed firm and 11sc higher, at 55c. A blizzard which was reported to be raging in Nebraska helped the advance. The provis-

INDIANAPOLIS MARKETS.

Erade Shows a Decided Improvement with the Beginning of the Month, INDIANAPOLIS, April 2.-The wholesale streets presented an active appearance to-day. Shipments of sugar are still large, and in other staple groceries there is a healthy movement. The dry-goods men had an excellent trade. In dress goods the patterns are unusually attractive, and prices rule firm and steady. This feature of the dry-goods market for months past has tended to make trade more even from season to season. The boot and shoe men report trade good, as do leather-dealers. The hide men speak of the market as being rather tame. Provisions are moving well in a jobbing way at firm prices. The flour market is more active than at any time in months, and prices carry a higher range.
The produce markets are ac ive, the volume of business being limited by the supply only. Prices on all lines continue firm. The seed men are having a busy time. Prices are unchanged and firm, as quoted. Other markets are without feat-

GRAIN. steady tone of the local market continues, much to the surprise of grain dealers, who thought the advance in prices were too pronounced to be of a healthy character. Track bids to-day ruled as fol-

at his hotel on Broadway yesterday morning leaping upstairs three steps at a time to escape an interviewer: A sandy-haired, loose-jointed young fellow, with an almost sophomoric mustache, yellowish-brown eyes that have a sort of foxy look; big hobnailed shoes, evidently put to good use in the forests of Mexico, and the smile and good-natured bearing of a boy with, on closer inspection, the manners of a man of the world. The bell-boys of the hotel did nos seem at all impressed with the idea that they were entertaining a distinguished character, and none of them seemed to have ever heard of Mr. Rider Haggard, but they speedily remembered the gentleman referred to when the clerk ordered them to find "that tall young man who goes upstairs three steps at a time.'
